

HERDING COMMITTEE CHAIR

Approved October 11, 2004

The ABdFC Herding Committee's purpose is to promote and educate the ABdFC members and the Bouvier fancy about the herding heritage of our Breed. Preserving this portion of the Breed Heritage is an important factor in preserving type. To accomplish this the committee will work with each year's specialty committee as requested to insure the best yet cost effective arrangements for the National Specialty herding trial. The committee will provide articles and other educational materials as it deems appropriate to the Dirty Beards and at its Trials to promote and educate casual observers and those new to herding. Upon request or the Board or any of the following committees chairs: (Judges Education, General Education, Performance) the Herding Committee will provide assistance to further the goals of ABdFC.
