American Bouvier des Flandres Club Carting Test Purpose

The Carting Tests of the American Bouvier des Flandres Club (ABdFC) are a series of exercises designed to develop and demonstrate the natural abilities of the Bouvier des Flandres in a cart-pulling environment with a handler. While working in a capacity involving hauling, the dog and handler must demonstrate teamwork skills. The Bouvier des Flandres has historically functioned as a carting dog in various capacities and the performance of these exercises is intended to demonstrate skills resulting both from natural ability and training that are applicable to realistic work situations.

Dogs must be willing to work with their handlers and the exercises must be accomplished efficiently. The goal of each handler is to maintain control while encouraging his/her dog's natural independence; together, they demonstrate teamwork. Since a dog can perform carting work only in cooperation with a person, each handler must demonstrate an understanding of carting work with the dog's ability, training, and equipment.
